**Our Spotlight Artists** for this month are **Hanny Basso** and **Dana Graham**

**Hanny Basso** was born in Santiago, Chile, but moved to Costa Rica with her family when she was in 6th grade. After Highschool she returned to Chile to pursue a degree in furniture and interior design.

Her professional life has taken many turns, from sales to working as a personal assistant. Meeting her husband, Jim, brought her to the United States, where she has lived for 21 years, mostly in Bartlesville, Oklahoma, where she is owner/operator of Sign & Banner Express. Jim and Hanny have one son Edward, currently a Freshman at OU.

Hanny has dabbled in more than one art medium, one of her favorites being ceramics, both hand-built and thrown.

In 2015 photography started shaping up as a more serious endeavor. A biology project about wildflowers for her son, sparked an interest in finding and shooting the bountiful prairie flowers, first with her phone. Some 3 cameras later, Hanny keeps capturing those tiny flowers and “developing” digitally. Her subjects and technique keep varying, from wildlife and nature, to man-made structures, textures, people, etc.; basically, anything that catches her eye, especially if there is detail to be seen in the ordinary.

Hanny has been part of the Bartlesville Art Association since 2017, as well as a member of the Professional Photographers of America. In 2018 she entered the Tulsa State Fair in the Open Photography and Enhanced Photography and won three firsts and one second-place award.

Going into the future, she sees herself as expanding her range of techniques, and trying multimedia expressions. It is a constant learning experience. Her website will soon be online at [hannybasso.com](http://hannybasso.com).

**Dana Graham** grew up in Ramona, OK. Her family moved from Tulsa when she was 8 yrs old. She always told everyone she was going to live on a farm, and that’s exactly what they did. She spent her school days surrounded by cattle, and her summer days on the back of a horse.

While sewing, cooking, and being an “indoor” girl didn’t come naturally to her, drawing and painting did. She spent hours watching her mother draw horses, and practiced drawing them herself. When she wasn’t riding horses, she was drawing them.

She spent several years showing Hereford cattle for 4H and FFA, and continued showing for Oklahoma State University. She took an art class there, but the instructor advised her to drop the class, saying she “just didn’t have it”. Not to be discouraged, she painted “Cattle Drive” while attending OSU. It was purchased by the Cherokee Nation, and now hangs in the Cooweescoowee Clinic in Ochelata, along with some of her other works.

She and her mother took watercolor lessons, but graphite quickly became her favorite medium because of its precise nature and her ability to capture realistic detail. Her hero has always been Carl Brenders, due to his ultra-realism style in wildlife artistry.

Dana continued her education, obtaining a Microbiology degree and a registered nursing degree. Her studies of animal anatomy and physiology have helped achieve that “reach out and touch” look to her wildlife portraits, and her love for dogs adds the heart in their eyes.

Dana currently lives in Ochelata with her husband, William, her Belgian Sheepdog Diesel, and her growing herd of miniature horses. Her artwork can be seen on facebook under Dana Hutchings Art.
